

**The International Life Sciences Institute, Europe (ILSI Europe)
is seeking an outstanding individual for the post of
Assistant Director**

ILSI Europe is a non-profit, scientific organisation, established in 1986 to advance the understanding of scientific issues relating to nutrition, food safety, toxicology, risk assessment, and the environment.

The successful applicant will have

- A higher level degree (preferably PhD) in areas such as food science and technology, food safety, biology, nutrition, toxicology or chemistry, academic experience with a track record of scientific achievements;
- Minimum 10 years of working experience;
- A good understanding of science across different fields, in an interdisciplinary and transversal manner;
- Very strong management skills and the ability to work in a team;
- A problem solving mind-set;
- Strong experience in project management, including financial management;
- Excellent command of written and oral English;
- European citizenship or and EU working permit and willing to relocate to Belgium.

The successful applicant will

- Be accountable to ILSI Europe Executive and Scientific Director and will assist her to develop ILSI Europe as a driving force for the development of scientific solutions for food safety, nutrition and environment issues;
- Lead a team of 7 Scientific Project Managers who manage the scientific programme of 22 specialised task forces and 50 expert groups and a network of highly renowned experts.

You can find more information about ILSI Europe at www.ils.eu

Please reply with full CV and motivation letter addressed to the Executive and Scientific Director, until 30th June 2018, via [application AD2018@ilsieurope.be](mailto:application_AD2018@ilsieurope.be)

Only selected candidates will be invited for an interview.
